

## Technology

# My Visibility Tool (MVT) New Features Launching 20th May

### New! MVT Track and Trace Features

Metro are always looking at new and innovative ways to enhance our technology and streamline workflows.

Our in house technology team have been developing exciting enhancements to the MVT Track and Trace platform, making it easier to navigate and improving the overall user experience.

Updates Include:

#### Visual Dashboard

A new landing page showing all shipment data insights at a glance

#### Search Function

Find and view shipments with ease, with the newly integrated search bar

#### > Pinned Shipments

Provides users immediate visibility and access to shipments of interest

#### Recent Shipments

Surfacing all active shipments for full real-time visibility of your supply chain

#### > Notifications

Alerting all live shipments with recent changes to provide faster information and insights

#### **>** Report Data Issues

Submit a data enquiry / query via the integrated form

#### > Improved Route Progress

Enhanced visualisation of shipment critical path status

#### > Enhanced map view

Available for all modes, with AI tracking for ocean freight shipments

#### > Pre-configured Filters

Easily navigate to shipments i.e Air, Sea, Road

#### > Output Source

Excel / CSV delivered directly to your download folder

#### > Shipments Page

Re-designed view surfacing shipment information in a single page

#### > Historical Shipments

Access historical shipment data with ease using filters to refine your search
